

## CHRISTIAN ANARCHY REVOLUTION

Who decides the laws of culture?  
Who decides morality?  
Who decides the rules of decent  
behavior?

Is the "American Dream" your  
dream?

The word *Anarchy* might spark to mind images of violence and chaos and rebelling against the political system of government. Christian anarchy has nothing to do with that. Why remove one corrupt system to replace it with another? Instead we are fighting deeper powers far more corrupt and destructive than simply our government!

The spiritual "rulers" of society have too long been *dominating us* and

telling us how to live, setting the precedent, forcing obedience through cultural normality. We've been brainwashed by television, music, and pop culture. We've been spoon-fed propaganda by our proselytizing professors, and the marketing gurus of the media and advertising.

Through the deception of self-expression, society has given way to the high God of humanism and existentialism.

Look around you and see where these authorities are taking you.

**Can you see the sadness? Can you see the suffering?**

Do you feel the emptiness that comes with the American dream?

The more we've bought into it, the more we've been disappointed. It has sucked us in and lied to us, and yet we happily obey.

We need a **REVOLUTION**. We need an overthrow of these deceptive authoritative world-views and to give Jesus Christ his rightful place of dominion in our lives.

Jesus came and committed the ultimate violent revolutionary act by offering himself as a martyr and sacrifice for the world defeating all of these dominating authorities.

Don't buy into the lie, **surrender your life to Christ** and reject the control these powers have over you!
